

### Recipe Corner

I mentioned last week how my sons have mastered kitchen skills. Chris ramped up my pizza recipe by melting butter with garlic powder and bits and then used a pastry brush on the outer circle of the pizza. That turned the crust from a handle into a very tasty part of the pizza. Now I need to convince him of the difference between beer and Coors Light.

#### Kitchen tips:

*Fruits and vegetables expire faster when you're the one paying for them. Eat the brown part of the banana because you paid for the damn thing.*

*There is never such a thing as too much garlic...unless you're making dessert.*

*Never forget to take the chicken out of the freezer the night before you try to cook it.*

*If there's an AA brochure on your recycle bin when you retrieve it...just ignore it.*

*Booze may not be the answer but it helps you forget the question.*

*What disease did the ham have before it became a cured ham?*

Gas prices actually hit a low of \$2.17 in 2020 before FJB was appointed. It is now \$3.32 national average. Biden killed the Keystone XL pipeline and is now importing a record amount of oil from Russia. At peak construction, Keystone XL would have employed approximately 13,000 people in Canada and the U.S., including 2,800 in Alberta and Saskatchewan and 10,200 in Montana, South Dakota, and Nebraska. The most recent data from the U.S. Energy Information Administration shows that in May, the U.S. imported 844,000 barrels per day of crude oil and petroleum products from Russia. Oil in our pipeline would have been cheaper to transport and cheaper at the pump.

Maybe because FJB gave a green light to Putin for the invasion of the Ukraine?

### Book Report

OK, the script for the movie *Groundhog Day* may not have been a book. But this year both *Groundhog Day* and the State of the Union address will occur on the same day, February 2nd. It's an ironic juxtaposition of these two events. One involves a meaningless ritual in which we look to an insignificant creature of little intelligence for prognostication...

...the other involves a groundhog.

**More good news...**Chris Pratt will star in new Amazon movie via John Carr's *The Terminal List*. In production now and coming in 2022. This debut of four novels starring another pissed off patriot. Amazon is reaching out to an untapped market and getting great results in ratings.

**Speaking of books...**always fascinated with the plots in the books I read. Here's one someone should explore:

**Guy celebrates his 85th birthday by becoming a hitman for hire. He figures they can't do much to him even if he gets caught.**

*(My kids will now have a very worried look on their face when they read this.)*

**2020 Election Update:**

---

1.25.2022:

**Wisconsin Assembly Votes to Withdraw 10 Biden Electors**

Biden – was 306 now 296  
 Trump – was 232 now 242

270 electoral votes to win  
 28 more electoral votes will overturn the 2020 election.

States being audited:

- AZ – 11 electoral votes
- PA – 20 electoral votes
- GA – 16 electoral votes
- MI – 16 electoral votes
- VA – 13 electoral votes

*I'm predicting another year of battles to get more withdrawn at which time the GOP will have captured both the House and the Senate. That's the pressure on Breyer to retire from SCOTUS so Biden can pick another.*

**And then there is this: based on passive surveillance reporting\* in the US, by the Journal of the American Medical Association (JAMA), the risk of myocarditis (Inflammation and damage of the heart muscle) after receiving mRNA-based COVID-19 vaccines (Moderna and Pfizer) was increased across multiple age and sex strata and was highest after the second vaccination dose in adolescent males and young men.**

**\*The "passive surveillance reporting" is VAERS...with an estimated 388,000 Americans killed by the COVID vaccines...so far. No wonder they have to issue mandates.**
