Democrats blocked construction of a border wall claiming it would not work. The Department of Homeland Security has awarded a \$500,000.00 contract to a local construction company in order to build a large fence around Biden's private beach house in Rehoboth, Delaware. The property is Biden's "summer White House" his administration said.

Lame Stream Media ignore WI election fraud...on November 4th, 2020, over 100,000 ballots were dropped for Joe Biden only. The state had more than 7 million registered voters while the state's population is only 5.9 million, which includes children and others who can't vote. Book Report

Heard about this book while reading another book who mentioned it. (Kurt Schlichter). A mix of *Jack Reacher* and *Joe Pickett*, Been through three and waiting for the fourth due April 2022. Cameron wrote many of the Tom Clancy novels after Clancy's death. I read 3-4 books a week but only do reports on the ones I've really enjoyed. This series is one of my new favorites.

New Reacher book. Andrew now in charge. Plot too broad. Will miss Lee.

Andrew has other good ones but you can spot the writing style different from previous *Reacher* books.

September 2021 page counts for people that get their news from the internet rather than TV.

With 5.9 million total viewers in the 2019-2020 TV season, CBS trailed “ABC World News Tonight with David Muir” with 9.4 million total viewers and “NBC Nightly News with Lester Holt” with 8.3 million, according to Nielsen. This must be driving media buyers nuts when they try to figure out where to place their ads. Probably doesn’t matter because most of the ads are “woke” and not trying to sell anything. Witness: Twix has released a new Halloween ad — and it has absolutely nothing to do with candy. Instead, the entire ad is a virtue signaling mess about a young boy with a witch for a nanny who encourages him to wear princess dresses in public...AND...never mentioned the name of the candy! Tip for media buyers...hire “social justice warriors” as part of your “research” team and convince the client that “woke” ads are better than selling products...thus you can charge triple your ad rate with no accountability.

According to early numbers from Nielsen Media Research, the Biden town hall, which was moderated by CNN’s Anderson Cooper, delivered just 1.2 million viewers from 8 p.m. ET to 9:30 p.m. The demographic (25 to 54-year-olds) that advertisers covet most, pulled a paltry **271,000**.

For context, 2.83 million viewers watched Fox News’s Tucker Carlson (8 p.m.) and the first half of Sean Hannity (9 p.m.)...more than 1.6 million more viewers.

That “Town” Hall didn’t ask about the GDP Growth number collapsing to 2% nor the supply chain crisis and worst inflation in decades or when the Americans stranded in Afghanistan will be rescued.

Meanwhile: The Defense Department, Homeland Security, National Security Council and Director of National Intelligence released a report on Thursday detailing the severe threats of global warming on the United States and the world. This major report was released by the Defense and Intel communities after they most recently failed to predict the Taliban would take over Afghanistan in only a few weeks.

These nutjobs also released a handbook on transgender persons instructing service members to be “sensitive” of each other’s preferred pronouns and warns against making “assumptions” about another person’s gender. The handbook also states that anti-transgender “bias” will not be tolerated ...while they “tolerated” that Chinese hypersonic missile zooming over their heads. They probably thought it was Kerry on another global warming trip?
