Pushes warm air down.
And you can clean the

For the Biden supporters:
turn the fan off first.

This news headline got a

Fox preferred grapes and
would hang out at the refriger-
erator until he got them. We
lost our female ferret since
some die if not bred when in

the internet for that fact.

*All the news I see fit to print.
Freedom of the press belongs to those who own one.*

Obvious by now that the idiot lawyer pointing that gun at the jury (*with his finger on the trigger*) didn't get the job done. In fact, Kyle's lawyers are preparing multiple defamation lawsuits against media such as CNN, MSNBC, ABC and other individuals including Joe Biden. The lawyer who won the defamation suits for Sandman has been hired by Kyle. Sandman won a \$250 million lawsuit against CNN...others still being filed. Maybe Nick and Kyle can have joint custody of CNN? Meanwhile, CNN claims they will be "fixing" their news organization. I already "fixed it" by cancelling cable service.

Farcebook (sic) is also in Kyle's crosshairs...his lawyers are going after the deepest pockets. My kids use it but I gave them ample reasons for avoiding it (*see article in my blog also included as an attachment*). Maybe after Kyle owns it I would consider using it. Then there are the "ladies" at **The View** program...still spewing hatred that is being chronicled by Kyle's lawyers. Why the producers of that show allow it to continue when they know what's coming from Kyle's lawyers I'll never figure out. Whoopie may have to change her name to **Whoops?**

THE
WHEEL OF TIME

Book Report

The wheel of time arrived with flat tires. Spent half an hour watching (*Amazon*) and couldn't make heads nor tails of what the hell was going on. I don't usually report on bad ones but this one is so bad I am including it. I do have a collection of Clive Cussler books (*thanks to Dr. Marshall*) to keep me busy until my favorite authors let loose with new books. Also finding even more about Michael Crichton's career. Did not know he was also director of films like **Die Hard** with Bruce Willis. I first ran across him from the classic **Andromeda Strain** movie which stands up even after half a century. Of course, Hollyweird came up with a TV series which I have avoided. Crichton was bigger than life...literally at 6'9" ...and has more than 12 movies based on his books that sold over 200 million copies.

Joe's been at it for about a year now. This is a synopsis of Bidenflation.

Joe's only begun...About 1.6 million barrels of crude oil from the U.S. Strategic Petroleum Reserve, a monthly record, was shipped out in October, according to data from market intelligence firm Kepler. All three supertankers went to Asia. Trump had gas at lowest price in 20 years and turned America loose to create energy independence. Joe is shutting down pipelines and cancelling energy contracts. Your Money Is Now Losing Close to 1 Percent of Its Value Every 30 Days, According to Labor Bureau Data.

Joe Biden recently admitted the United States is "losing our edge" on Communist China in controlling the supply of the essential natural resource cobalt. However, according to a report released just days after Joe Biden's admission, his son Hunter profited from helping a Chinese firm acquire cobalt mines from an American company.

It's going to get worse...Biden's nominee for Office of the Comptroller of the Currency (OCC) was arrested for shoplifting in 1995 at a TJ Maxx. Saule Omarova, who Biden picked to head the OCC in September, stole four pairs of shoes, two bottles of cologne, two belts and socks from the store when she was apprehended. The security agent on duty told police that he saw Omarova take the items by placing them into a large purse and covering them with other clothing items to obscure the stolen items. The security agent said that Omarova paid for several items at the jewelry counter but "made no attempt to pay for the items concealed in her purse" and confronted her after she left the store.

BTW: Nancy Pelosi has purchased an 11,000 square foot \$25 million mansion on the ocean in Florida. Doesn't want to pay exorbitant state and local taxes in San Francisco? Or maybe just wants a ring side seat to the ocean's rise because of Climate Warming? Cooling? Change?

Whatever!

*Just because you can

You're welcome.*

The emphasis on fund raising as an indicator of a candidate's rank is being pushed hard by the media. Stop and think...why use fund raising as a poll? Where does most of that money go? It's being spent in what area? Yep...the media which is pushing the importance of funds raised.

Another thought about the clowns running with no chance in hell of getting elected: What happens to the money those candidates don't spend? Yep...they get to keep it.

Yet another thought: Ever wonder why the election season starts so early? Is it because it provides a longer timeline for fund raising?

No wonder they passed the 17th amendment!

Until next week...
