

Recipe Corner *Signs of inflation*

Sam's Club 87% Lean, 13% Fat Ground Beef \$3.86/lb Was 90/10 @ \$3.25 month ago. The 80/20 is best for pizza.

Lobster is cheaper in Boston than hamburger.

Starting to see empty shelves at Sam's Club.

Food shortages result when food producers are missing inputs like resin sitting on those 170+ tankers off the coast...used for packaging. Wet markets in our future?

Biden claimed his economic plan is working because Americans were able to save \$0.16 on the cost of July 4th meal.

The U.S. Department of Agriculture data shows average wholesale price of turkey has spiked by 21.91% since last year.

The 2019 Honda Civic at a used-car auction would have had a sticker price of around \$21,000. But within seconds at the wholesale auction, the two-year-old model, with 4,000 miles, sold for \$27,200. Maybe the cause of the rise in car jackings?

If you have an old clunker that you don't need anymore just sitting around, you may want to check what it is worth.

11.6.2021 #303

*All the news I see fit to print.
Freedom of the press belongs to those who own one.*

Just released...and the most important book you should read.

Shines spotlight on all the players rather than just what happened. Example: **Marc Elias** is the "lawyer" who orchestrated all of the legal crap that literally destroyed our faith in the election process. Now he is hired (\$60K) by Terry Macoughing (sic)

His campaign is to obfuscate the Virginia governor's race with lawsuits of course, because the GOP was winning in the polls.

Now that the GOP has won all the races, Fairfax County in VA (*heavy D district*) is having "trouble" counting the ballots. GOP win may be too big for Elias to pull off another fraud...or maybe they want to save their effort for the 2022 elections.

This is not an easy book to read if you have high blood pressure. You'll find that Elias is a critical figure in the ongoing Durham investigation and has been accused of lying to the media to hide the role of the Clinton campaign in funding the Steele Russia Hoax dossier. The Durham gang...many of the gang members have been at it for years with no results.

Meanwhile in Minnesota, defund the police vote didn't go the way Omar pushed...but the MN GOP is still silent on all issues and candidates. Their website is a disaster with several state senators missing in their list of "Our Team". Contact via email goes unanswered...maybe I should wave a few dollars in front of them?

Wisconsin's Racine County GOP found 23,000 Voters with the Same Phone Number and 4,000 Voters Registered on 1/1/1918 (*Biden Awarded State by 20,000 Votes*)...wake up the MNGOP!

Bon Mots

People who tolerate me on a daily basis are the real heroes.

Book Report

Ron Perlman as **Hellboy**...an actor I never took seriously until I found the Amazon series **Hand of God**. Made the mistake of starting Season One at 10pm and was hooked until 4am when The Boys objected that I was still vertical and not in bed.

Several actors shine in this series well beyond previous roles: Camryn Manheim (**The Practice**) and Brian Baumgartner (**The Office**) as examples.

The plot (rotating writers) hits all the hot buttons yet stays balanced...difficult to find that on TV today.

Semiotics professor **Dr. Evan Wilding** might be one of the most interesting characters I've come across yet in thriller/detective novels. FREE eBook for Amazon Prime members. Grab it!!!

-more-

Michigan Gov. Wretched Whitmer vetoed several bills aimed at tightening election security in the state, telling lawmakers the Republican-backed legislation would disenfranchise voters and disproportionately impact minority voters. The bills would have prohibited election officials from accepting donations, toughened in-person voter identification rules, required people to provide additional information on absentee ballot applications such as their driver's license number or state ID number, instead of only a signature. The measures would have also banned the Secretary of State's Office and township or city clerks from providing absentee ballot applications unless specifically requested by a voter, and removed a \$10 fee to obtain or renew a state ID card.

If The "Vaccinated" Refuse the Booster – How Long Until They Are No Longer "Vaccinated"?

**Daylight Savings Time Ends Sunday Nov 7
Set clocks back one hour.**

Time zones were developed by the railroads in 1883 to resolve confusion and avoid train crashes caused by different local times...controlled by the Interstate Commerce Commission. The ICC introduced daylight savings time during WWI and abolished it after the war but allowed states to continue the practice. As a result, confusion and collisions caused by different local times once again became a transportation issue.

In 1966, the Department of Transportation was founded to serve as a "focal point of responsibility for transportation safety" and given regulatory power over time zones and DST was implemented uniformly across the Nation, with dates for the twice-yearly transitions set by Federal law.

This still holds true today. Every state must continue to observe DST between March and November, unless otherwise exempted by State law. Once Congress gives Minnesota authorization to move to daylight saving time permanently, we will switch to DST in spring 2022 and never change our clocks again because of MN House File 72 and MN Senate File 149.

**Tell a youngster
it's quarter to ten
and you'll get a
funny look.**

They are used to digital but still understand the analog phrase: "I've got your six".

Maybe by Sunday your car clock will be correct.

**Mal Mots
A chicken crossing
the road is poultry
in motion.
You're welcome.
(for 'Becca)**

Two years ago, this was a seed in an apple I was eating. Curiosity got the best of me and after several false starts, including 27 below weather, finally got it going strong enough to plant in the yard.

Thinking Super Glue to confuse the neighbors.

Until Next Week...
