

### Recipe Corner

#### Key Elements of Pizza

Sauce, spices, cheese and toppings, but the crust is the key element of great pizza. I've been experimenting for years for the best and have been leaning towards this one handed down to David Rocco by his grandmother. Can't get any more Italian.

#### Ingredients

- 4 cups all-purpose flour
- 1 tablespoon fresh yeast, crumbled
- 3/4 cup white wine
- 2 tablespoons extra-virgin olive oil
- 1 teaspoon salt
- 2 cups lukewarm water

#### Directions

Mound the flour on a smooth work surface, and create a well in the middle of the flour. Break up the cubes of yeast with your hands and add it to the well, along with the white wine, olive oil and a portion of salted lukewarm water. Work the flour slowly, adding the rest of the salted lukewarm water as needed until it turns into a uniform dough. Cover the dough and let rest to rise for about 20 to 30 minutes. I usually pre bake the crust on a perforated pizza pan until crisp but not totally baked before adding the rest. Then back into the oven. Full recipes for the Marinara sauce, spices, etc. would take up the entire newsletter. Drop me an email if you want all the recipes I have for pizza. If you use pineapple...I'll ignore and pray for you.

*All the news I see fit to print.*

*Freedom of the press belongs to those who own one.*

"President" Joe Biden violated federal law in his selection of a supreme court jurist solely based on her sex and race. Joe considered no one else, and instructed his staff to ignore any other candidate. Apparently no white, Hispanic or Asian, or a male, had the qualifications to serve or were even considered.

Wisconsin Added 29% of the ENTIRE VOTING POPULATION to Voter Rolls in 10 Months Prior to the 2020 Election — 957,977 New Names. Seven percent of mail-in ballots were trafficked in Wisconsin or 137,551 trafficked votes in an election decided by 20,682. At least 107 ballot traffickers were identified in the state. There was 100% turnout in nursing homes in Zuckerberg-funded Wisconsin cities – they stole the votes from seniors. The voter rolls were deliberately not cleaned in the state with millions of extra names. The state election commission charged Republicans \$12,500 for data requests but Democrats were given similar data requests for free. Meanwhile, Hillary claims the 2016 election was stolen from her...six years later.

Given the time lag on Hunter Biden's laptop and Hillary's Federal Election Commission fine for cheating, we may get some resolution to the 2020 election fraud around 2050? They'll have to dig up some of the perpetrators (sic) given the age of most of the Deep Swamp. The threat of a life sentence for senior citizens doesn't have quite the threat when the wheels of justice roll at a snail's pace.

### Book Report

This 1999 stand alone is very different from the *Lincoln Lawyer* or *Bosch* novels. Found it while searching for the rest of the Lincoln Lawyer books. Any book by Connelly worth the time and price. Don't forget to check out the *Bosch* TV series .

CNN hired Chris Wallace from FOX for a new streaming service. The hilarious result:

*A total of \$300 million has already been invested into CNN+, which attracts only 10,000 viewers per day. If my math is correct, CNN+ paid \$30,000 per viewer. If my math is incorrect, I went to public schools. The stated goal was to invest a total of \$1 billion — with a "B" — into CNN+, which would basically mean that these arrogant narcissists intended to spend a cool billion dollars to attract about 25,000 daily viewers.*

*"Chrissie fit" coming?*

-more-

In 2008, Dr. Fauci co-authored a paper about the Spanish Flu that caused millions of deaths at the time of the First World War. He and his colleagues discovered that most of the victims didn't die of the Spanish Flu. They died from bacterial pneumonia...caused by...wearing masks.

The Constitution of the United States gives us the right to bear arms, not the government. There are now 24 constitutional carry states...Alabama, Alaska, Arizona, Arkansas, Idaho, Indiana, Iowa, Kansas, Kentucky, Maine, Mississippi, Missouri, Montana, New Hampshire, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, Utah, Vermont, West Virginia, and Wyoming...where you can carry a gun

### You Don't Mess With Texas

*"To help local officials whose communities are being overwhelmed by hordes of illegal immigration who are being dropped off by the Biden Administration, Texas is providing charter buses to send these illegal immigrants who have been dropped off by the Biden Administration to Washington, D.C.," Governor Abbott said during a press conference in Weslaco, Texas. "We are taking them to the United States Capitol where the Biden Administration will be able to more immediately address the needs of the people that they are allowing to come across our border," the governor added.*

**Mal Mots**  
**Science doesn't care what you "believe".**  
**You're Welcome**

*I'm starting to wonder how much longer the USS Biden will stay afloat. The Lame Stream Media is even questioning some of the "logic" e.g. inflation due to Putin, climate change still an unproven threat after 52 years of warning, electric cars the answer to high gas prices, and the "mask on...mask off" cure for Covid. While bideninflation destroys your savings, a pork barrel spending bill with \$200 million for international "gender equity" programs was passed by both parties. Soon we'll be wishing for a return to the days of Jimmy Carter. At least we had Billy Beer. Would have been a great investment. Need something stronger today...Russian vodka?*

<https://rumble.com/v10miez-world-premiere-watch-the-water.html>

*Do NOT miss this one. Explains EVERYTHING about Covid.*

Several people have sent this to me. I have watched it three times...and found something new in it each time. Too many "coincidences" to ignore how seemingly unrelated facts come together resulting in a conclusion you hope is not true. **Until Next Week...**
