

## Recipe Corner

### Havarti Cheese Sauce

Time to put the pasta robot to work...

#### Ingredients

2 tbs butter  
 1/2 tbs extra virgin olive oil  
 10 large minced garlic cloves  
 2 1/2 cups of half and half  
 1/4 cup dry white wine  
 8 ounces Havarti cheese  
 1/2 cup Parmesan cheese  
 1/2 teaspoon onion powder  
 Salt and pepper to taste

#### Instructions

Heat a large sauce pan using medium heat. Add butter and olive oil. Once the olive oil and butter becomes hot add the garlic to the pan. Cook the garlic, add the half and half, dry white wine, and onion powder. Turn heat down to medium low to cook sauce for about 5 minutes. After the sauce has cooked, turn the heat off, add the diced cheeses to the sauce. Stir the sauce until cheese melts and blends into the sauce. Serve with your favorite pasta. Add shrimp, chicken, or sausage. Add more half and half if sauce is too thick. You can freeze this sauce for later.

*Weather getting better so I've got doors open. There's a bird out there making noise that sounds almost like the timer signal on my oven and it's driving me crazy. Makes me think I've got something in the oven...even worse when I do.*

## The Frank Report

*"Where am I?  
 What the hell am I  
 doing here and  
 what's my name?"*

*All the news I see fit to print.*

*Freedom of the press belongs to those who own one.*

### More on the 1973 Roe vs Wade

**Follow the money...**Planned Parenthood's \$2 Billion annual revenue enabling donations to the pro-choice politicians or the pro-life politicians using their position on the issue to raise money from their pro-life constituents. Then there are the philosophical arguments about when life begins to the bedrock damnation decrees from the more radical clergy.

Abortion is a medical procedure. How the hell do lawyers and politicians fit into a discussion between the doctor and pregnant patient? Unless the pregnant patient is male...then bring in a psychiatrist. Is it a sin? That's up to the patient and their choice of clergy. If the clergy can't convince the pregnant patient, the clergy should admit they don't have enough information to convince the pregnant patient of any sin involved with abortion and quit teaming up the lawyers and politicians. I would guess the potential father would have a greater influence on the pregnant patient's decision than any lawyer, politician or clergy. Oh...the father is missing? Sure glad the Democrats came up with the Great Society that forced fathers to stay away from the family so the mother could collect welfare. The dichotomy of that program forced the issue of how many kids would a welfare mother support thus providing a reason for abortion once they had decided on their limit. Quite frankly, I don't have an opinion. The "my body my choice" argument works for me only with government mandated vaccines.

BTW: who started this mandatory circumcision thingy? Was it a publicity conscious clergy who saved all their clippings? OK...too much...BUT did you know "they" tried starting a movement against it? Demonstrators on street corners in white trousers with catsup smeared on their crotch. I am not kidding...it was just a few years ago in MN.

## Bon Mots

*There are no stupid questions, but there are a LOT of inquisitive idiots.*

## Book Report

Debut novel and the free ebook for this month from Amazon for Prime members. It got off to a shaky start but the action and development of the book's characters soon got my full attention. **Rooker Lindstrom** is the new flawed hero and I'm sure there's more to come.

1997: his second book and a real page turner (720 of them!) with fast action, plot that ricochets all over the place and great character development.

This is the link to the **2000 Mules** movie confirming the massive election fraud in the 2020 presidential election.

**2000 MULES**

DINESH D'SOUZA  
2022 FILM

Anyone connected to this movie has been banned by social media and news media...including FOX News. The Roe vs Wade SCOTUS leak happened the SAME DAY as the release of this movie. Starting to figure out why this movie is so important? Dems and RINOS are throwing everything they can think of to deflect your attention away from this movie...including Bidenflation:

*Consumer Price Index (measurement of inflation) is at 8.3% while Gas: +43.6%, Electricity: +11%, Meat, Poultry, & Fish: +13.8%, Milk: +14.7%, Eggs: +22.6% Coffee: +13.5%, Used Cars: +22.7%, Airline Fares: +33.3% while Real Average Hourly Earnings: -2.6%.*

All five states noted above that Trump "lost" are proven "wins" when the fraud is presented in the movie complete with videos and GPS tracking of the mules.

Supreme court receives an average of 7,000 to 8,000 petitions for a hearing. Each year, the court has agreed to hear only about 80 of those cases. That's 1%. They didn't agree to hear ANY petition on the election fraud. Instead...well, you can look that up. Makes you wonder.

### Here They Come Again

Fulton County is already having 'integrity' problems with early voting for the May 24th primary. Election officials have instructed poll managers to "keep poll scanners powered up overnight", in complete violation of previous procedure. The instruction was given verbally only to poll managers and not put in writing.

One poll watcher witnessed the above and commented, "*Early voting in Ga has been interesting already. Easy Vote systems are not working so manual voter check in.*

*Of course, we are still using Dominion Machines."*

The Dominion machines have a USB port that can be connected to cell phones allowing anyone to affect the machines. They can also fill out ballots...80% in one case in New Mexico. **Meanwhile**, 2021 figures are in...we paid \$3.8 Trillion in taxes while the Biden administration spent \$6.8 Trillion while claiming he reduced the deficit. And another \$40 billion on its way to Ukraine and no oversight. 10% to the Big Guy?

## Mal Mots

***When life knocks you down, stay there and take a nap.***

**You're welcome**

### About That Fauci Gang

National Institutes of Health – Anthony Fauci's employer – doled out \$30 billion of taxpayer money in government grants to roughly 56,000 recipients within the scientific, research, and healthcare industries. These industries then paid more than \$350 million in royalties back to the agency and NIH scientists – who are credited as co-inventors...and are already paid by taxpayers. Fauci also "won" a \$1 million prize from the Dan David Foundation (and Tel Aviv University) for "speaking truth to power." BTW: did you know that any "man made" virus cannot be patented? It's also against international law. Bet a search about those "royalties" will uncover some interesting facts. I did it...I encourage you to do the same. **Also:** Title 18 of the U.S. Code, section 1507 makes protests outside the private residence of a federal judge a federal crime.

**Until next week...**
