

Recipe Corner

Ever have one of “those” days? That is a sour cream Bundt cake. Didn’t make the transition to the plate but still tastes good. Think super glue would help? I’ll blame it on climate change! If you disagree, you’re racist.

Baby Formula Problem?

How FJB got the federal government involved in a food shortage...then had to rely on Germany for emergency shipments has got to be a head scratcher.

Some of us were raised without Similac using the following:

- 13oz Pet evaporated milk**
- 20oz water**
- 2Tbs Karo syrup**
- 4oz in each of six bottles*

You’ll find lots of folks still alive that were raised on this formula. I guess pharma folks couldn’t patent it?

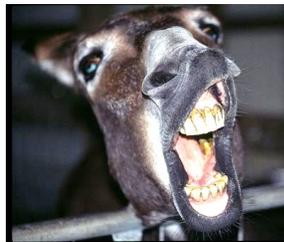

The Frank Report

"I love having Trump as a tag team partner!"

5.28.2022 #332

*All the news I see fit to print.
Freedom of the press belongs to those who own one.*

It took 2000 mules to install one jackass in the White House.

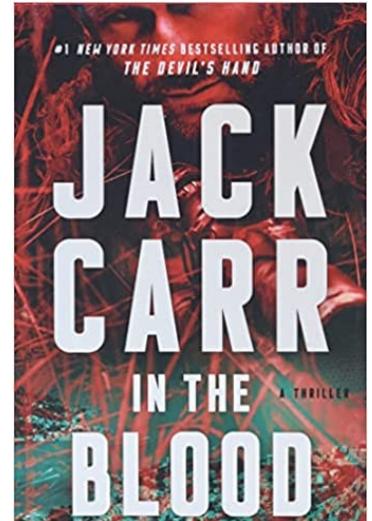

The free movie is still available on bitchute (see my newsletter couple weeks ago) but most of social media has banned it.

Democrats are going nuts as their over the top rants and raves are being countered with something they don’t understand ...

common sense. Covid ain’t working anymore so they now have monkeypox which is a sexually transmitted disease passed between men. The LGBT folks are going to figure this out and start the racist mantra against anyone pushing monkeypox. It’s called shooting yourself in the foot. RINOs are just as bad as they just gave \$40 billion to Ukraine without any oversight while the \$54 billion small business relief bill was voted down by...the RINOs. The incumbent tag on the RINO will do as much damage as the D. Here in MN the GOP has continued the cat fight involving Hagedorn’s widow who was their chair and now is running for her husband’s seat after his death. Instead, her opponent has received the MNGOP endorsement. The second district congressional seat is now held by Angie Craig. Her GOP opponent sent out a mass email...mentioning Angie...but NOT her GOP opponent. If you’ve ever wondered how MN has been captured for decades by the Democrats...the lack of any opposition should explain it. The MNGOP will be using that same email list to solicit funds...can’t wait to reply. I shouldn’t be surprised by the lack of brains in the campaigns given the candidates are usually vanilla flavor wimps who haven’t a clue on how to fight back when confronted with idiots who claim men can become pregnant, can't figure out which bathroom to use. They label any brief mention of common sense to be racist, homophobic, misogynist and Russian based.

Bon Mots

Some problems appear only when we are looking for them.

Book Report

This is the fifth in the series...first one (**Terminal List**) will be Amazon movie July 1st with Chris Pratt as the hero. Hope they do as good a job as they did with **Reacher**.

Yes, I watched the Amazon **Reacher** again. Caught things I missed first time around. Same thing happened reading the book second time around.

Baldacci’s **Last Man Standing** mentioned Christopher Whitcomb FBI Hostage Rescue Team member as source of info he used in the book. Also wished Whitcomb luck in his venture as an author. Tracked down three of Whitcomb’s books...will let you know if worth finding.

www.bookseriesinorder.com I use this resource to search for new authors to follow.

-more-

Things I learned from Democrats:

- Social Security funds will never be used for any other purpose.
 - Pronouns make people obey anything my imagination can create.
 - Gender is the result of feelings and not biology.
 - Men can get pregnant but can't march for women.
 - All white people are racist and only black people matter.
 - Vaccinations will protect you from the unvaccinated.
 - Masks will protect you from the unvaccinated.
 - If masks and vaccinations don't work, it's because of climate change.
 - Taxes on products such as gasoline will not raise prices.
 - Taxes on corporations will not be passed on to their customers.
 - Race is easier to spell than ethnicity and easier to pronounce.
 - African Americans cannot be white, even Elon Musk.
 - People with dementia can become president.
 - Presidents can have sex with an intern in the White House.
 - Congressional salaries can make you a multi-millionaire.
 - Extremely low IQ is not a disqualifier to run for any political office.
 - African Americans can be Democrats but not Republicans.
 - To keep Guam from tipping into the ocean, no military base can be allowed.
 - It's OK if the UN wants a military base in Guam.
 - Peaceful protests by Democrats can include destruction of property and shooting people.
 - Peaceful protests without destruction of property and shooting people by Republicans are insurrections and they get arrested with no bail.
 - Climate change will destroy the earth every decade.
 - You never run out of money if you own a printing press.
 - Political donations must never be confused with bribes.
 - The 67 people Hillary Clinton hated all committed suicide.
 - When Democrats march, it's patriotic.
 - When Republicans march, it's a riot.
 - The border wall is mean to people.
 - Democrats believe in free speech unless it's disinformation.
 - If we fire all the police, cities will be safer.
 - Hillary Clinton is innocent no matter what she did.
 - Donald Trump is guilty of everything we can imagine.
 - And finally...mail-in ballots for the midterm election prevents monkeypox.
- (Take the K out and you'll figure it out.)**

Mal Mots

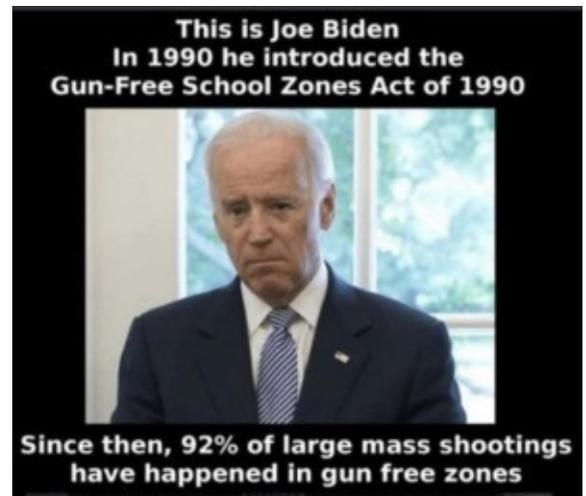

Today is the first day of the rest of your life.

So was yesterday, and look how that turned out. You're welcome

Things that make you go hmmmm....

A Seattle couple has lived aboard cruise ships for the past year after determining it's cheaper than a mortgage — and they have no plans to return to living on land. Angelyn and Richard Burk — both in their 50s — have always dreamed of retiring to a life of travel. They had been going on a cruise around the world at least once, sometimes twice each year. But it was in early 2021 that Angelyn, an accountant, crunched the numbers and found something unexpected — the pair could retire now, and live aboard cruise ships for as little as \$43/day... cheaper than their current living expenses.

(I'll repeat this next January.)

Until next week...
